

How can you tell if the kitten you've found is sick or injured?

SIGNS OF A SICK KITTEN:

- Thin stomachs and gaunt face, visible ribs and spine
- Cold ears, bellies and paws
- Pale gums and tongues
- Lethargy/almost no movement
- Excessively crusted eyes or nose
- Diarrhea or vomiting
- Struggling to breathe

SIGNS OF AN INJURED KITTEN:

- Limping
- Visible wounds or sores
- Crying out in pain

If a found kitten is injured or critically sick, **call our Field Services team at 808-356-2250**
